

28 March 2018

To the Resident or Occupier,

Dear Neighbour,

 Ref CRWT0575: East Wick & Sweetwater Specified Infrastructure Works

We are writing to advise you that Balfour Beatty is due to commence work along Copper Street on 09 April 2018 which will continue until August 2018. This work is being delivered on behalf of London Legacy Development Corporation and its appointed developer, East Wick and Sweetwater Projects. The works consist of highway realignment and installation of utilities required to enable later development either side of the road by East Wick and Sweetwater Projects.

The scope of works along Copper Street consists of:

- Constructing a new entrance into the Copper Box Arena Blue Badge parking area
- Removal of coach turning loop at the end of the Copper Box Arena service road
- Re-alignment of Copper Box Arena service road and junction
- Installation of utilities and services adjacent to Copper Box Arena service road

During these works traffic management will be setup along Copper Street and Copper Box Arena access road to ensure the safety of our workforce and other road users. We will however maintain access for pedestrians, cyclists and vehicles along Copper Street and access to the following remaining unaffected:

- Copper Box Arena
- Copper Box Arena service road and yard
- Wallis Road pedestrian and cycle bridge
- Mossbourne Riverside Academy
- Here East

We will issue further communications as the works progress to keep you updated. If you have questions about the works please contact the LLDC 24 hour helpline on 0800 0722 110 or email via info@eastwickandsweetwater.co.uk and quoting reference: *East Wick and Sweetwater Specified Infrastructure Works*. To request this letter in large format or braille, please use the contact details above to request this service.

We appreciate the overall works can be disruptive and would like to take this opportunity to express our apologies for any inconvenience caused and would also like to thank all businesses, residents and Park users for being patient with us while we undertake the works.

Many Thanks

Jasvir Sandhu

Stakeholder Manager

For and on behalf of Balfour Beatty and the East Wick and Sweetwater Specified Infrastructure Works
